

A schematic diagram of the LAr TPC detector layout. The diagram consists of a large yellow rectangle representing the LAr TPC volume. At the top center of this rectangle is the text 'LAr TPC'. Inside the yellow rectangle, there is a dark gray rectangular area representing the TMS (Target Material System). This dark gray area is divided into three equal vertical sections by two thin yellow lines. The text 'TMS' is centered in the middle section of this dark gray area. Above the top edge of the yellow rectangle, there is a smaller yellow rectangle representing a support structure or shielding.
